

# ADHD Morning Routine Checklist

14 small steps, split into **foundations** (do these first, body before brain) and **momentum** (once you're actually online). Check off what you need today, skip the rest.

## FOUNDATIONS

☐ **Wake up on time**  
A calmer start than a snoozed alarm

☐ **Drink water**  
Hydrate your brain before anything else

☐ **Take your meds (if relevant)**  
Set yourself up for the rest of the list

☐ **Move your body**  
Stretch, a short walk, or a few jumping jacks

☐ **Have a nourishing breakfast**  
Fuel your focus for the morning ahead

☐ **Set your top 3 priorities**  
Keep it to three, not a full to-do list

☐ **Check your calendar**  
Know what's ahead before it surprises you

## MOMENTUM

☐ **Do one small avoided task**  
Pick the tiniest version and build momentum

☐ **Read or learn something**  
Feed your brain before the day fills up

☐ **Focus session (10-25 min)**  
Progress over perfection, timer optional

☐ **Take a mindful moment**  
A few breaths before the momentum takes over

☐ **Set your intention for today**  
Finish the sentence: "Today I choose..."

☐ **Be kind to yourself**  
You're doing enough, even on a half-checked day

☐ **Let's do this**  
However far you got, the day is moving
